Call for Demos

Organizing Committee
General Chair
José M. Martínez
Universidad Autónoma de Madrid, Spain
Technical Program Chairs
Jesús Bescós
Universidad Autónoma de Madrid, Spain
Guillaume Gravier
IRISA, France
Joemon Jose
University of Glasgow, United Kingdom
Paulo Villegas
Telefónica I+D, Spain
Special Sessions Chairs
Pablo Castells
Universidad Autónoma de Madrid, Spain
Yiannis Kompatsiaris
Informatics and Telematics Institute, Greece
Demos Chairs
Philippe Joly
IRIT, France
Víctor Valdés
Universidad Autónoma de Madrid, Spain
Publication Chairs
Iván Cantador
Universidad Autónoma de Madrid, Spain
David Vallet
Universidad Autónoma de Madrid, Spain

Steering Committee
Régine André-Obrecht, IRIT, France
Jenny Benois-Pineau, LABRI, France
Chabane Djeraba, LIFL, France
Moncef Gabbouj, U. Tampere, Finland
Patrick Gros, INRIA, France
Ebroul Izquierdo, QMUL, UK
Philippe Joly, IRIT, France
Riccardo Leonardi, U. Brescia, Italy
Bernard Merialdo, EURECOM, France
Georges Quénot, LIG, France
Thomas Sikora, TUB, Germany

Local Organizing Committee
VPULab and IRG at UAM

Following the eight successful previous events of CBMI (Toulouse 1999, Brescia 2001, Rennes 2003, Riga 2005, Bordeaux 2007, London 2008, Chania 2009 and Grenoble 2010), the Video Processing and Understanding Lab (VPULab) and the Information Retrieval Group (IRG) at Universidad Autónoma de Madrid will organize the next CBMI event.

CBMI 2011 aims at bringing together the various communities involved in the different aspects of content-based multimedia indexing, retrieval, browsing and presentation. The scientific program of CBMI 2011 will include invited keynote talks and regular and special sessions with contributed research papers.

Demos

CBMI 2011 is seeking original, beyond state of the art proposals for Demos to be included in one Demos Session within the technical program. The demos may be of content-based multimedia indexing systems, as well as of other systems related to the topics of the workshop.

The demo proposals should include a cover letter describing shortly the problem solved by the system to be demonstrated, the user community addressed, the system requirements for setting up the demo and a walk-through of the demo presentation, together with a short paper (maximum 4 pages using the templates provided on the CBMI2011 site) describing the system. Upon acceptance the short paper will be included in the conference and proceedings, if the comments from the reviewers are appropriately addressed. We also welcome URLs to any video/flash presentation of the demo to be included in the demo proposal.

The proposals will be evaluated based on their quality, timeliness, relevance to CBMI, potential to open new perspectives and/or bring together confluent areas, and further develop the field; as well as the viability of the demo at CBMI2011 venue (applicants should clearly state in the proposal the requirements for the demo and what may be needed from the local organizing committee).

All accepted and registered papers will be published in the workshop proceedings which will be indexed and distributed by the IEEExplore.

Demos Proposal Submission

Demo proposals (cover letter and paper) should be submitted to cbmi2011@irit.fr by February 1, 2011, under the form of extended abstracts of maximum 4 pages using IEEE conference format. Style files (Latex and Word) will be provided for the convenience of the authors.
The final demo paper will be published in the conference proceedings and on a CD-ROM distributed to the participants of the CBMI workshop. The page limit for the final demo paper will be 4 pages. It will also be possible to submit videos or other material related to the demo to be included on this CD-ROM.

Important Dates
Submission of Demos proposals: February 1, 2011
Notification of acceptance: February 25, 2011
Submission of camera-ready papers: March 11, 2011
